Standard	Disclosu	ire	Direct Answer	Source
General Disclosures	2-6	Activities, value chain and other business relationships	SL Green is a fully integrated real estate investment trust, or REIT, that is focused primarily on managing, developing, renovating, and the acquisition and divestment of primarily commercial properties. The reporting boundary includes properties under the company's operational control and all but one are full or partially owned. The company depends on a diverse pool of vendors to provide products and services that are critical to the growth and success of the enterprise. Tier 1 suppliers account for the top 60% of company spend and totaled over 25 vendor partners in 2024 including Contractors, Building Security, Maintenance, Brokerages, Building Management, Legal Services, Consultants, and Architectural Services. Tier 2 suppliers are expected to meet the same requirements as Tier 1 suppliers. Other relevant business relationships include joint ventures, development partners, third-party managers, and owners of managed-only properties. Downstream entities include SL Green tenants.	ESG Policies, p. 33 2024 ESG Report, pp. 30-31
General Disclosures	2-7	Employees	The company includes 1,445 employees (1,262 full-time; 183 part-time) who are located primarily in Manhattan, with less than 1% located in Connecticut. The numbers listed are a year-end headcount of all employees including full-time and part-time. The company does not employ any Non-Guaranteed Hours employees. SL Green uses end of year (EOY) data to track full-time and part-time employees.	N/A
General Disclosures	2-8	Workers who are not employees	The majority of the company's workers are employed by SL Green Realty Corp. Exceptions include construction contractors, select security personnel, food and beverage service employees, and SUMMIT retail store operations - all of these individuals are directly employed by vendor partners. Exceptions also include seasonal hourly interns.	N/A
General Disclosures	2-9	Governance structure and composition	In 2024, the company's Board of Directors was comprised of seven (7) members, four (4) of whom were independent. Of our independent Board members, two (2) were women. Our Board includes four standing committees: Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee, and Executive Committee. The Nominating and Governance Committee is designated with the oversight of ESG matters, including related strategy and risk. The Board conducts outreach with the governance teams of the company's largest shareholders at least twice per year and reviews the company's corporate profile to ensure it follows best governance practices. For more information on SL Green's approach to corporate governance and ethics, including Governance Principles, Committee Charters, and Code of Business Conduct and Ethics, visit the Corporate Governance page of the website.	2024 Proxy, pp. 12, 35
General Disclosures	2-10	Nomination and selection of the highest governance body	Our Nominating and Corporate Governance Committee assists the Board in identifying and reviewing director candidates and recommends director nominees to the Board to be considered for election at our Annual Meeting of stockholders. Our Nominating and Corporate Governance Committee adopted a written policy on the criteria and process of identifying and reviewing director candidates. In making recommendations to the Board, our Nominating and Corporate Governance Committee also considers such factors as it deems appropriate, in light of the skills, qualifications and background of the Board's current composition and the opportunities and challenges the Board anticipates in the future. These include, but are not limited to, gender, race, ethnicity, nationality, country of origin, or cultural background and perspectives.	2024 Proxy, p. 22
General Disclosures	2-11	Chair of the highest governance body	Marc Holliday, Chief Executive Officer & Chairman of the Board.	2024 Proxy, p. 23
General Disclosures	2-12	Role of the highest governance body	SL Green's executive and department-level leadership act together as a fully integrated sustainability committee responsible for managing ESG governance and incorporating practices into operations. This committee serves as conduit to the Board's oversight of ESG topics and the ESG team's program implementation, ensuring a coordinated response to ESG issues across the organization with input from key internal stakeholders. The ESG team is overseen by SL Green's Chief Operating Officer (COO), who leads over 1,000 employees and is responsible for managing building operations, construction, technology, people experience, and sustainability which includes oversight of energy, emissions, water, waste, local community, economic performance, environmental compliance, DEI data, and health and wellness. The COO is the highest-level position with direct responsibility for climate-related issues, overseeing most functions with the largest potential impact on mitigating climate-related risks. Our Chief Financial Officer (CFO) also oversees the company's finances and investor relations, and provides updates to shareholders on climate-related risks and opportunities.	2024 Proxy, pp. 29, 35 TCFD Report, pp. 5, 16
General Disclosures	2-13	Delegation of responsibility for managing impacts	The ESG team consists of five (5) full-time employees, including a senior level SVP, Sustainability & Hospitality and VP, Director of Sustainability, with reporting to the COO. These individuals provide updates to the Board and relevant committees on sustainability strategy, performance, and progress, while working collaboratively with business units. Progress reports for ESG are formally presented and reviewed quarterly, and individual initiatives are communicated on an ongoing basis. The ESG team is responsible for managing the initiatives and coalescing relevant parties to assist in implementation, but every employee is obligated to achieve ESG goals and participate in operationalizing sustainability throughout the organization.	2024 Proxy, pp. 7, 35 TCFD Report, p. 5

Standard	Disclos	ure	Direct Answer	Source
General Disclosures	2-14	Role of the highest governance body in sustainability reporting	Chief Executive Officer & Chairman of the Board.	2024 Proxy, p. 19
General Disclosures	2-15	Conflicts of interest	Please refer to the 2024 Proxy Statement.	2024 Proxy, p.37 (see "Code of Ethics")
General Disclosures	2-16	Communication of critical concerns	Please refer to the 2024 Proxy Statement.	2024 Proxy, p.37 (see "Code of Ethics")
General Disclosures	2-17	Collective knowledge of the highest governance body	SL Green's ESG program has executive-level participation, with oversight from the Nominating and Corporate Governance Committee. The company's ESG initiatives receive top-down support and are fully integrated into every business unit. The Board and executive team leverage their market experience to provide strategic guidance and advance the ESG program. The executive team and senior management are regularly engaged, while the Board remains involved on a quarterly basis and for ongoing programs and initiatives. The scope of discussion includes energy, emissions, water, waste, community impact, economic performance, environmental compliance, DEI topics, and health and wellness across all assets. SL Green introduced content training for all employees on DEI and providing historical context specifically for the real estate industry. To keep stakeholders informed, the company utilizes various channels such as the Annual Institutional Investor Conference, quarterly status reports, e-mail updates, and the annual ESG Report. Through extensive shareholder outreach, there is active engagement with members of the Board and the ESG team to discuss key matters.	2024 Proxy, pp. 5, 22, 35 TCFD Report, pp. 4-5
General Disclosures	2-18	Evaluation of the performance of the highest governance body	The Compensation Committee and the Board prioritize annual shareholder votes on executive officer compensation. SL Green's compensation structure to include four pay elements: Annual Base Salary, Annual Cash Bonus, Performance-Based Equity Awards, and Time-Based Equity Awards. SL Green values stockholder feedback and is committed to enhancing performance-based compensation by reducing discretion in bonuses, implementing vesting caps, eliminating auto allowances, and removing short-term measurement periods. While a significant portion of compensation is performance-based, the company also considers non-financial and qualitative factors. Long-Term Incentive Awards align senior management with long-term performance goals. Marc Holliday (CEO & Chairman) serves as the highest decision-maker on social and climate-related issues. The CEO's compensation is also tied to ESG performance and achieving goals set during the previous year's Annual Institutional Investor Conference, ensuring deep involvement in such matters.	2024 Proxy, pp. 24, 42-66
General Disclosures	2-19	Remuneration policies	Please refer to the Proxy Statement.	2024 Proxy, pp. 42-66
General Disclosures	2-20	Process to determine remuneration	Please refer to the Proxy Statement.	2024 Proxy, pp. 42-66
General Disclosures	2-21	Annual total compensation ratio	Please refer to the Proxy Statement.	2024 Proxy, pp. 42-66
General Disclosures	2-22	Statement of sustainable development strategy	Please refer to the ESG Report.	2024 ESG Report, pp. 16-19
General Disclosures	2-23	Policy commitments	SL Green's Human Rights Policy, Vendor Code of Conduct, and Code of Business Conduct and Ethics address conducting due diligence, applying the precautionary principle, and respecting human rights (discussion regarding vulnerable groups included in the Human Rights Policy). For the level at which each of the policy commitments was approved, see linked policies, which can also be found on the company website. The Vendor Code of Conduct is included in each of our contracts with vendors.	ESG Policies, pp. 14-15 Vendor Code of Conduct Code of Business Conduct and Ethics

Standard	Disclosu	ire	Direct Answer	Source
General Disclosures	2-24	Embedding policy commitments	SL Green's commitment to sustainability is guided by policies that are integrated into business units to inform decisions and processes across the organization. The company outlines policies that address all material environmental, social, and governance issues identified by stakeholders. Policies are operationalized within each work stream with responsibility at the senior leadership level. Sustainability is integral to investment decisions, ongoing operations, capital planning, and risk management. Specific climate-risk avoidance and mitigation strategies are identified in the TCFD Report including operating procedures. The company also evaluates its priorities through a materiality assessment and feedback from internal and external stakeholders. The ESG team updated the assessment and published the results in the 2023 ESG Report. The materiality assessment includes climate resilience, carbon emissions reduction, water conservation, waste management, transparency, DEI, employee retention and development, and supply chain management. To ensure policies are upheld by vendors in SL Green's supply chain, training is offered through a third party platform. Vendors must sign a Vendor Code of Conduct as part of their contractual obligation, which requires adherence to SL Green's EMS and Sustainability Policies. For employees, SL Green requires compliance with the Code of Business Conduct and Ethics. These commitments cover 100% of managed properties.	ESG Policies Code of Business Conduct and Ethics, p. 83 TCFD Report, pp. 5, 7-8
General Disclosures	2-25	Processes to remediate negative impacts	Please refer to the Code of Business Conduct and Ethics.	Code of Business Conduct and Ethics, pp. 83-94
General Disclosures	2-26	Mechanisms for seeking advice and raising concerns	Please refer to the Code of Business Conduct and Ethics.	Code of Business Conduct and Ethics, pp. 83-94
General Disclosures	2-27	Compliance with laws and regulations	The company did not incur any energy compliance-related fines or sanctions for non-compliance with laws and regulations in the social and economic area.	N/A
General Disclosures	2-28	Membership associations	SL Green participates in the following membership associations: Building Owners and Managers Association New York League of Conservation Voters Business Improvement Districts Real Estate Board of New York Citizens Budget Commission Realty Advisory Board Commercial Real Estate Women, New York Regional Planning Association Institute of Real Estate Management U.S. Green Building Council National Association of Real Estate Investment Trusts Urban Green Council New York Building Congress Urban Land Institute	N/A
General Disclosures	2-29	Approach to stakeholder engagement	SL Green's Annual Institutional Investor Conference, annual ESG Report, and Quarterly Earnings Calls serve to update stakeholders in addition to individualized e-mail updates, which covers the topics mentioned above. SL Green conducts extensive shareholder outreach, during which, key ESG topics are discussed with members of the Board and the ESG team. Additional engagement can be found in our Stakeholder Engagement section in the 2024 ESG Report.	2024 ESG Report, pp. 38-39
General Disclosures	2-30	Collective bargaining agreements	As of December 31, 2024, 57.2% of SL Green's workforce was covered by five (5) collective bargaining agreements, and none of the workforce was covered by collective bargaining agreements that expire before December 31, 2025.	2024 Annual Report, p. 53
GRI 3: MATER	IAL TOP	ICS		
Material Topics	3-1	Process to determine material topics	Please refer to the Materiality Matrix.	2024 ESG Report, p. 39
Material Topics	3-2	List of material topics	Refer to the Materiality Matrix. SL Green's materiality analysis is conducted and/or reviewed by senior management at least annually. The analysis ranks all material ESG aspects based on importance to, and potential impact on, the company, our stakeholders, and the community, prioritizing feedback and perspectives from both internal and external stakeholders. Our most recent materiality assessment was conducted in 2023 and found the following topics to be immaterial: Freedom of Association and Collective Bargaining, Market Presence, Water, and Effluents and Waste.	2024 ESG Report, p. 39

Standard	Disclosu	ire	Direct Answer	Source
Material Topics	3-3	Management of material topics	Please refer to the Stakeholder Engagement section of the ESG Report to learn more about the process of identifying topics material to the company and stakeholder involvement and communication. Actual and potential negative and positive impacts on the economy, environment, people, and the company are described in the ESG Report, in the Proxy. Policies, commitments, and actions to address these impacts are listed in the ESG Report. The ESG Policies are also linked for more in depth policy responses to the material topics. Progress tracking is described in the 2024 ESG Report and the 2024 Proxy. We are currently evaluating our processes to align with the double materiality methodology and assessment.	ESG Policies p. 2 2024 ESG Report, p. 39 2024 Proxy, pp. 35-36
GRI 201: ECO	NOMIC	PERFORMANCE		
Economic Performance	201-1	Direct economic value generated and distributed	Refer to SL Green's Annual Report.	2024 Annual Report
Economic Performance	201-2	Financial implications and other risks and opportunities due to climate change	Please refer to the 10-K filing and TCFD report.	2024 10-K, p. 17 TCFD Report, p. 6
Economic Performance	201-3	Defined benefit plan obligations and other retirement plans	SL Green ensures that all employees have access to health, medical, and other benefits. A list of benefits is included below, but please also refer to Employee Health & Benefits section in the ESG Report. Health, Dental and Vision Insurance 24/7 Employee Assistance Program Short and Long-Term Disability Coverage Wellness Education & Events Life Insurance and AD&D Pet Insurance Employee Stock Purchase Plan Charitable Giving Employer Match (up to \$2,000/year) 401(k) Employer Match Pensions (Union only) Health & Commuter Flexible Spending Accounts Benefits for temporary or part-time employees include: 401(k), Wellness Education & Events, and corporate discounts.	2024 ESG Report, p. 23
Economic Performance	201-4	Financial assistance received from government	In 2024, SL Green participated in the New York State Energy Research & Development Authority (NYSERDA) FlexTech Program, engaging six (6) properties in energy assessment and planning initiatives. The company also secured an additional \$4 million in incentive funding to be distributed over the next three years through NYSERDA's Real-Time Energy Management + Tenant, Onsite Energy Manager, and Workforce Development programs. These initiatives support the implementation of energy efficiency measures, enhance tenant engagement on energy use, and strengthen internal capabilities to drive long-term energy performance improvements across the portfolio.	N/A
GRI 202: MAR	KET PRE	ESENCE		
Market Presence	202-1	Ratios of standard entry level wage by gender compared to local minimum wage	Building personnel wage is covered under the Collective Bargaining Agreement (CBA). For employees not covered by a CBA, compensation is above minimum wage. Minimum wage in New York City was \$16 per hour in 2024.	N/A
Market Presence	202-2	Proportion of senior management hired from local community	100% of senior management is hired from the local community, the Greater New York City area. SL Green uses the EEOC definition to categorize senior management: individuals who plan, direct and formulate policies, set strategy, and provide the overall direction of enterprises/organizations for the development and delivery of products or services, within the parameters approved by boards of directors or other governing bodies. Residing in the highest levels of organizations, these executives plan, direct, or coordinate activities with the support of subordinate executives and staff managers.	EEO-1 Job Classifications Guide (see "Officials and Managers")
GRI 203: INDI	RECT EC	ONOMIC IMPACTS		
Indirect Economic Impacts	203-1	Infrastructure investments and services support	SL Green's portfolio includes 12 Privately Owned Public Spaces (POPS) covering nearly 200,000 square feet. The company also supported eight (8) Business Improvement Districts (BIDs), investing \$3.2M towards community enhancement with the addition of bike racks, kiosks, information carts, taxi stands, free public WiFi, security and sanitation, park improvements, homeless outreach, and capital improvements. The company also created FOOD1st, a 501(c)(3) that provides meals to food insecure New Yorkers. Since its inception, FOOD1st has raised over \$7M and provided over 1 million meals.	2024 ESG Report, pp. 24-27

Standard	Disclosu	ire	Direct Answer	Source
Indirect Economic Impacts	203-2	Significant indirect economic impacts	SL Green supports New York City's youth through the Summer Youth Employment Program (SYEP) and Ladders for Leaders, and was acknowledged as 2022 Employer of the Year by the Mayor's Fund to Advance New York City. The company was one of the first developers to complete a 421-a "Affordable New York" project to provide affordable housing to New Yorkers. As part of SL Green's bid for a casino license, we have committed to creating 3,000 construction jobs and 3,800 permanent jobs. The project also commits to \$250 million in community projects including an \$81 million public safety plan, \$15 million for a new civil rights museum, the establishment of the Manhattan Plaza Capital Trust, and \$5 million for the Callen-Lorde Center for Excellence in Sexual Health. The project is also expected to generate excess demand for more than 13 million meals annually at local restaurant, over 2,400 hotel rooms each night in surrounding hotels, and more than \$880 million in incremental annual retail purchases	2024 ESG Report
GRI 204: PRO	CUREME	NT PRACTICES		
Procurement Practices	204-1	Proportion of spending on local suppliers	SL Green encourages local product and service purchases at all properties in order to reduce emissions and benefit the local economy. SL Green emphasizes sourcing materials and products that contain higher levels of recycled content and purchases locally to the greatest extent possible, and procurement includes harvesting/extraction and processing/manufacturing within 500 miles. In addition, projects aim to purchase approximately 50% of wood products from FSC-certified sources.	ESG Policies, pp. 6-7
GRI 205: ANT	-CORRU	PTION		
Anti- Corruption	205-1	Operations assessed for risks related to corruption	100% of operations are assessed for risks related to corruption. SL Green continuously evaluates potential corruption risk and utilizes its supply chain due diligence process. Risks related to corruption are identified through the Vendor Code of Conduct and Code of Business Conduct and Ethics.	Vendor Code of Conduct Code of Business Conduct and Ethics
Anti- Corruption	205-2	Communication and training about anti- corruption policies and procedures	100% of Board members and employees are subject to the Code of Business Conduct and Ethics policy. 100% of employees acknowledge familiarity with this policy and are required to complete annual training to confirm their knowledge of said policy. 100% of vendors are required to comply with our Vendor Code of Conduct.	Vendor Code of Conduct, p. 3 Code of Business Conduct and Ethics, pp. 85-86
Anti- Corruption	205-3	Confirmed incidents of corruption and actions taken	There have been 0 confirmed incidents of corruption. There have been 0 confirmed incidents of money laundering. There have been 0 confirmed incidents related to conflicts of interest.	N/A
GRI 206: ANT	-COMPE	TITIVE BEHAVIOR		
Anti- competitive Behavior	206-1	Legal actions for anti-competitive behavior, anti-trust, and monopoly practices	There have been 0 confirmed incidents of anti-competitive behavior.	Code of Business Conduct and Ethics, p. 85
GRI 207: TAX				
Tax	207-1	Approach to tax	Please refer to the 10-K filing.	2024 10-K, p. 88
Tax	207-2	Tax governance, control, and risk management	Please refer to the 10-K filing.	2024 10-K, pp. 24-25
Tax	207-3	Stakeholder engagement and management of concerns related to tax	Please refer to the 10-K filing.	2024 10-K, p. 20
Tax	207-4	Country-by-country reporting	Please refer to the 10-K filing.	2024 10-K, p. 34

Standard	Disclos	ıre	Direct Answer							Source			
Biodiversity	304-3	Habitats protected or restored	minimizes our po on previously dev environment such level, rather than	L Green's business strategy centers on managing, leasing, and/or redeveloping previously built environments, which ninimizes our potential impact on natural habitats or ecosystems. SL Green's development projects are all located in NYC in previously developed sites, also known as "brownfield". Immediate biodiversity concerns associated with the built invironment such as green space provisions or urban greening are typically managed at the municipal or urban planning evel, rather than within the private sector. Nonetheless, we are committed to protecting biodiversity and reporting on our ctivities to reduce impacts on natural ecosystems									
				In New York, the state in which SL Green's operations occur, the total number of IUCN Red List species and national conservation list species are measured as the following:									
		IUCN Red List species and national conservation list species with habitats in areas affected by operations	Category	# of S	pecies								
			Critically endang	gered 1	1								
Biodiversity	304-4		Endangered	2	3					IUCN Red List			
			Vulnerable	3	1

Effluents and Waste	306-3	Significant spills	0 significant spills. Not material.	N/A
Effluents and Waste	306-4	Transport of hazardous waste	In 2024, SL Green collected 163 short tons of e-waste for recycling by dedicated hauler, EWASTE+. This hauler utilizes environmentally sound processing methods that maximize value and recovery while eliminating the disposal of hazardous electronics and components to landfills. The data covers 64% of our managed properties but the program is offered to 100% of SL Green tenants.	Letter of Assurance
Effluents and Waste	306-5	Water bodies affected by water discharges and/or runoff	Not material. All water used by SL Green's operations is discharged into the NYC Waste water systems, where it undergoes wastewater treatment.	N/A
GRI 306: WAS	TE			
Waste	306-1	Waste generation and significant waste-related impacts	Waste generated by SL Green portfolio is dependent on the operational activities of tenants within buildings along with SL Green construction projects. Most waste generated by our properties include food and office supplies. SL Green has had no known significant waste-related impacts and is not aware of any flow of inputs, activities, and outputs that could lead to significant waste-related impacts. During construction, the company prioritizes recycled materials and reuses durable items when possible. During renovation of tenant spaces, SL Green recycles ceiling and carpet tiles and donates furniture.	2024 ESG Report, p. 13
Waste	306-2	Management of significant waste-related impacts	Waste generated by SL Green portfolio is dependent on the operational activities of tenants within buildings along with SL Green construction projects. SL Green's portfolio offers recycling, landfill, and e-waste services to our tenants and ensures the requirements of Local Law 87 (LL87) are met. LL87 was introduced in 2016 to support New York city's Zero Waste by 2030 goal. SL Green hosts recycling trainings with tenants and Local 32BJ cleaning staff. Local Law 146 requires tenants within a designated size and business function (i.e., cafes, restaurants, retail) to compost. SL Green receives quarterly updates from waste haulers and reviews waste data regularly for accuracy. Any discrepancies are addressed with haulers by Property Management. SL Green partners with a certified TRUE Advisor to complete annual waste audits for managed properties. These assessments identify sources of contamination, areas of improvement, and ways to increase recycling rates, and ensure that tenant and employee guidelines are followed. Results are presented both internally and to tenants to create customized corrective action plans. SL Green also participates in various donations drives and partners with local community organizations to provide tenants with donation resources to divert materials from landfills. The following items are collected for donation in our lobbies: sporting equipment, food, school supplies, coats, toys, and more.	2024 ESG Report, p. 13
Waste	306-3	Waste generated	Overall waste generation reduction portfolio-wide was 14.5%. The total operational non-hazardous waste (including e-waste and bulk waste) in 2024 was 8,772 short tons, of which 5,807 short tons were sent to landfills, 2,791 short tons were diverted through recycling and composting, and 163 short tons were diverted through e-waste recycling. This data is obtained quarterly from waste haulers responsible for waste collection in SL Green properties and covers 100% of our managed operational waste. Construction waste is not included in operational numbers; however SL Green ensures that construction waste is properly handled by General Contractors.	Letter of Assurance
Waste	306-4	Waste diverted from disposal	Waste diverted from landfills in 2024 includes 2,628 short tons of paper, cardboard, metal, glass, plastic, 163 short tons of composting, 163 short tons of e-waste, and 123 short tons of shredded paper. This is a diversion rate of 33.4%. This covers 100% of managed properties.	Letter of Assurance
Waste	306-5	Waste directed to disposal	The total operational non-hazardous waste (including e-waste) in 2024 was 8,722 short tons, of which 5,807 metric short tons were sent to landfills. SL Green's portfolio is handled by waste haulers that send waste to incineration with energy recovery. This covers 100% of managed properties.	Letter of Assurance
GRI 308: SUPI	PLIER EN	IVIRONMENTAL ASSES	SSMENT	
Supplier Environmental Assessment	308-1	New suppliers that were screened using environmental criteria	Please refer to SL Green's Supply Chain Due Diligence Process. The total number of SL Green suppliers in 2024 was 2,073. This process begins with mandatory assessments of Tier 1 Critical Suppliers administered by an independent third party. SL Green identifies "critical suppliers" as those whose spend is over a defined threshold value (accounting for 60% of current annual spend) and where SL Green displays a level of dependency (actual coverage for 2024 was 78% of total spend out of 85 suppliers). In 2024, the company screened right (8) new suppliers and re-assessed 24 suppliers.	2024 ESG Report, p. 30
Supplier Environmental Assessment	308-2	Negative environmental impacts in the supply chain and actions taken	There were no significant negative environmental impacts identified among Tier 1 suppliers assessed. High-priority corrective actions identified include inconclusive documentation on environmental policies and inconclusive reporting on environmental issues.	N/A

GRI 413: LOC	AL COM	MUNITIES		
Local Communities	413-1	Operations with local community engagement, impact assessments, and development programs	SL Green's portfolio includes 11 Privately Owned Public Spaces (POPS) covering 150,000 square feet. The company also supported ten Business Improvement Districts (BIDs), investing \$2.7M to support community enhancement with the addition of benches, bike racks, kiosks, taxi stands, public WiFi, security and sanitation, homeless outreach, and capital improvements. SL Green also donated \$250,000 to the Madison Square Park Conservancy to construct a dog run in the public park. The company created FOOD1st, a 501(c)(3) that provides meals to food insecure New Yorkers. SL Green supports New York City's youth through the Summer Youth Employment Program (SYEP) and Ladders for Leaders, and was acknowledged as 2022 Employer of the Year by the Mayor's Fund to Advance New York City. The company was one of the first developers to complete a 421-a "Affordable New York" project to provide affordable housing to New Yorkers. As part of SL Green's bid for a casino license, we have committed to creating 3,000 construction jobs and 3,800 permanent jobs. The project also commits to \$250 million in community projects including an \$81 million public safety plan, \$15 million for a new civil rights museum, the establishment of the Manhattan Plaza Capital Trust, and \$5 million for the Callen-Lorde Center for Excellence in Sexual Health. The project is also expected to generate excess demand for more than 13 million meals annually at local restaurant, over 2,400 hotel rooms each night in surrounding hotels, and more than \$880 million in incremental annual retail purchases	2024 ESG Report, pp. 24-27
